TEN PASSENGER TRAINS STALLED

in the Yards of the Union Pacific Railroad at Cheyenne.

ROTARY PLOWS ARE AT WORK

Expected Traffic Will be Restored Be fore Night-Rock Island Blockade Lifted.

(Special to the "News.")

Chevenne, Wyo., Oct. 24 .- Despite the *fforts of the railroad companies, traffic is completely tied up on the mair line of the Union Pacific. Between Cheyenne and Sidney, Nebraska, the Cheyenne and northern branch of the Colorado Southern and the Sterling-Cheyenne division of the Burlington, are blockaded. Snowplows were run day and night, and a large force of shovelers were kept constantly at work, but the cuts filled almost as fast as they were cleared. Monday's eastbound overland flyer on the Union Pacific is tied up here together with a half dozen passenger trains that followed it. At North Platte and Sidney the westbound trains are snowbound. There has been no suffering among the passengers as yet, for the company has provided food through the dining cars, eating houses and lunch counters. Freight traffic has been entirely suspended.

The storm ceased yesterday afternoon but the wind continued to blow throughout the night. Today opened clear, warm and calm, and the blockades should be lifted by tonight. Officials take a more cheerful view of the situation today than at any time since the storm commenced last Saturday. The few reports that have come from the range country state that while sheep and cattle suffered some, the losses will be very slight, in one or two instances possibly where sheep were caught in the deepsnow a considerable distance from hay supplies there will be probably light losses. Rauchmen are hauling hay today and cowboys and herders are gathering up the scattered focks and herds that drifted. If warm weather prevails for two or three days the storm will prove of great benefit on the farms and to stockmen, but should a cold spell set in there will be losses.

TEN TRAINS STALLED.

Cheyenne, Wyo., Oct. 24—The four days' storm, which ended last night, was followed today by fair mild weather, which is likely to continue. There have been no losses of cattle reported, and but few sheep have succumbed to the clarents.

The Union Pacific railroad has been ockaded for 24 hours between this city and Sidney, Neb., and 10 passenger trains are stalled in the Cheyenne yards. Rotary plows are constantly at work and with mild weather today it is expected traffic will be resumed on practically schedule time before night.

R. I. BLOCKADE LIFTED. and trains resumed their regular schedule this morning.

STORMING IN NEBRASKA.

KITIGAKI'S RESIGNATION.

At Naval Academy Nothing Can be Learned About It.

Annapolis, Md., Oct. 24.—Rear Admiral Sands, superintendent of the naval academy, today received the navy department's approval of the "withdrawal" of Midshipman Asahi Kitigaki, from the brigade at the academy. The department's approval, it is understood, was given "at the request" of the Japancse embassy. The authorities here received their first intimation of the action on Monday morning when the young man tendered his resignation under instructions from the embassy at Washington. While it cannot be said positively that Kitigaki used the word "ipstructed," this was the understood meaning of his action. He was at once

BLEACHED FLOUR.

Commercial Wrinkle is Being Tried Here With Success.

new commercial wrinkle of bleached flour is being established in this, as in more eastern markets. By this process, ordinary straight grade flour, no matter how yellowish its tint, is bleached a fine white, so that it appears equal to the best or high patent article. Dealers differ as to whether the doctored article can be baked so as to resemble the light, fluff, texture of the genuine high patent goods, some claiming that it cannot. At all events the consumer may not be able to distinguish the difference, so that where the mills or commission men are inclined to do so, they can charge high patent flour prices for the second grade article.

Another wrinkle is the sterilization of flours, particularly of meals. The flours flours, particularly of meals. The flours are heated to a temperature high enough to kill the germ, and it is claimed that by this the flours are made practically indestructable. As a general thing, after flours and meals are stored for any length of time they are liable to become wormy, and one local commission firm recently had a large lot thrown back on its hands by bakers for this very reason. But it is alleged that by the sterilization flours and meals may be kept indefinitely without their becoming wormy, or deteriorating in any way—provided of course that they are not stored where it is wet. are not stored where it is wet

FUNERAL OF MRS. KILBURN.

No Relatives Except Her Husband See Her Laid Away.

Funeral services over the ramains of Margaret Mary Hill Kilburn, wife of Ozias Kilburn, who died Sunday in this city, were held at the funeral parlors of Joseph William Taylor today at 12:39, under the direction of the bishopric of the Sugar House ward. Musical selections were furnished by a quaret, composed of Angus Alston, Bird Murphy, David A. Smith and Cilnton Alston, consisting of "Scatter Seeds of Kindness," "I Need Thee Every Hour," and "Farewell all earthly honors." The opening prayer was offered by Charles H. Davis, and benediction was pronounced by Bird Murphy. The speakers were Christopher Alston and John M. Whitaker, who spoke words of comfort to the bereaved ones. The grave was dedicated by Christopher Alston. Circumstances which made the funeral of peculiar sadness is the fact that she came here for treatment about two weeks ago, and died away from relatives and friends, her husband excepted, and on account of the storm which has just passed, a number of relatives were unable to be at the services. at 12:30, under the direction of the
